New, Independent CHUGACH Board of Directors Accomplishments

- Replaced ineffective CEO
- Established cooperative attitude toward other Railbelt utilities
- Held first open news conference in 20 years
- Appointed independent Blue Ribbon Panel to take a hard look at Chugach - - found high reliability but high rates
- “Benchmarked” Chugach against comparable national utilities - - found Chugach has been charging ratepayers \$20-25 million more annually than similarly-sized utilities
- Teamed with Mayor Begich and ML&P to explore consolidated operations with Chugach - - found potential savings of over \$200 million dollars
- Announced plans to join with Homer Electric Association and ML&P to share new, more efficient power generating facilities in Anchorage - - potential savings of up to \$86 million over 12 years
- Announced efforts to join with all Railbelt utilities in a Unified Power Producer project for the Railbelt electric grid - - potential savings estimated in the hundreds of millions

WE'RE MAKING GREAT PROGRESS!
